EL 9206-1148

CERTIFIED

The deep single sided 120 lightbox is specially designed for illuminating large size textile prints. Even illumination is provided by BFF's Ultra-LEDs mounted to the inside channel of the frame. The outer channel on this profile accepts BFF accessories including footplates and hanging hardware.

- The open and closed profiles can be combined so that the exposed sides of the frame have the "closed" surface while the top or bottom rail has the open channel for the baseplate, suspension hardware and other BFF accessories.
- Perfect light distribution
- Edge-lit by Ultra LEDs
- Multiple LED positions
- Flat packed to minimize freight costs
- Back of profile has channel to accept SEG fabric to prevent light leaks

BH0240 / BH0250

Each frame is delivered with 4 locksets heavy and 4 locksets BH0250.

Optional

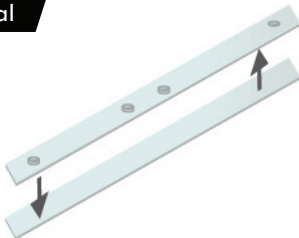

BH0400

These wallmounts can be placed under the frame to hang the frame on the wall.

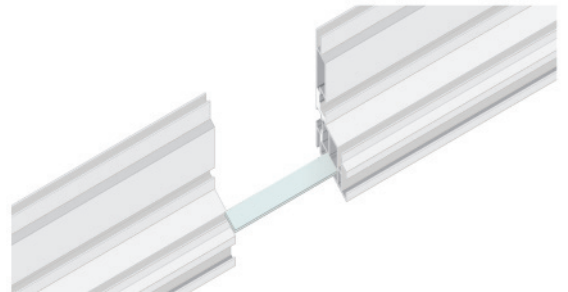

Optional

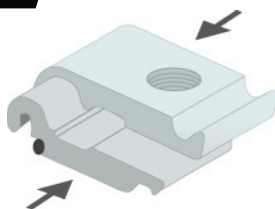

BH0500

If the length of the frame is longer than 13 feet, an extension set (BH0500) is included.

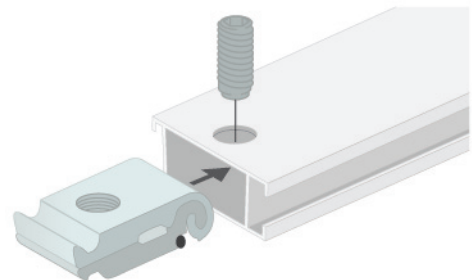

These extension sets can be placed in the channels where the frame is cut in half.

Optional

BH0220

When connecting the stabilizer, first place the lockset in the channel.

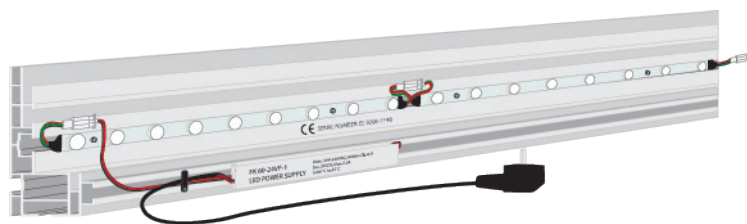

Then put the stabilizer (BFSTS) on the lockset, now tighten the screw with the delivered allen key.

Optional
