

CABINET 34

Build in textile frame

BF34S Silver

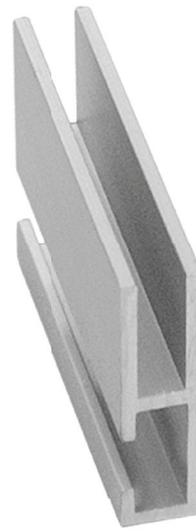

Colors:

Silver

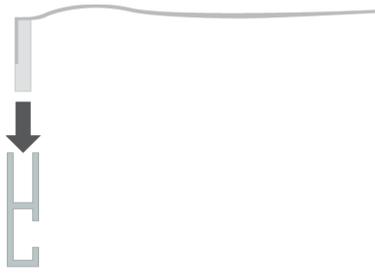

Available in every color on request.

Application: Build in
Width: 1.3 inches
Length: Up to 20 feet

Single-sided textile frame, meant to be built in. This profile is often mounted in a niche. Due to its simplicity, it is an ideal solution for a low cost textile frame.

- Suitable for textile printing with Silicone Edge Graphics
- No lockset needed, easy installation by drilling the profile

Place the textile print in the frame. Start with the corners and press the silicone strip in the channel.
